

Lucas Bonde de Souza

Full Stack Development

Profile

Full Stack Developer with an emphasis on Front-End and over 3 years of hands-on experience in complete projects using React.js, Node.js, and relational databases. Proficient in CRUD, consuming REST APIs, and building modern interfaces. Excellent learning, communication, and problem-solving skills. I'm looking for opportunities to grow in the web development area and deepen my knowledge in Artificial Intelligence, Machine Learning, and Data Science.

Work Experience

System Instructor and User Support at AesirERP, Guarulhos –SP

August 2024 – October 2024

- Conducted training and development for ERP system users, promoting greater productivity in the use of the platform.
- Resolved more than 50 technical calls with a satisfaction rate of over 90%.

Projects

[LitShare](#) — Literary Social Network | Full Stack

Technologies: React, JavaScript, CSS, Bootstrap, NodeJS, PostgreSQL

- Developed a social network for literature lovers with a login system, interactive feed, likes, comments and followers.
- Created a RESTful API to manage user data and book reviews with JWT authentication.
- Used PostgreSQL for data modeling and integration between users and social interactions.

[Brasileirão Simulator](#) — Championship Simulator | Full Stack

Technologies: React, JavaScript, CSS, Bootstrap, Node.js, PostgreSQL

- Developed an interactive application to simulate Brazilian Championship matches, with real-time table updates.
- Implemented dynamic scoreboard and classification logic, with data persistence in PostgreSQL.

[FindMovies](#) — Movie Platform | Full Stack

Technologies: React, JavaScript, CSS, TailwindCSS, TMDb API

- Developed an application that allows users to search for movies and TV shows, explore trending content, and view detailed information.
- Integrated the TMDb API to fetch up-to-date data about movies and series.
- Implemented dynamic search and custom filters providing a practical and interactive browsing experience.

Education

- **Universidade Cruzeiro do Sul (UNICSUL), Guarulhos – SP**
Technologist in Systems Analysis and Development
