Experience

Aesir ERP 📅 Aug 2024 – Oct 2024 (~ **3 months**)
System Instructor and User Support 📍 *Remote, Guarulhos – SP*

- I provided training and development for users of the AesirERP System, teaching functionalities and recommended practices for user.
- I provided technical support and answered questions to ensure efficient use of platform, promoting user satisfaction and autonomy.
- I provided ongoing support, solving technical and operational problems to improve the user experience of the system.

Projects

LitShare — *HTML, CSS, Bootstrap, JavaScript, Node.js, PostgreSQL* 📅 **August 2024**

- Developed LitShare, a social network that allows users to share their literary experiences.
- Implemented full authentication, including login, registration, and Google integration to facilitate user access.
- Allowed users to add, edit, and delete their book reviews, promoting personalized content.
- Integrated features to follow other users, like publications, and explore what other people are reading.

Brasileirão Simulator — *React, Node.js, PostgreSQL, Bootstrap, JavaScript, HTML, CSS* 📅 **October 2024**

- Brasileirão Simulator is an interactive application that allows users to change matches scores.
- The leaderboard is an updated in real time, ensuring a dynamic experience.

Visit USA — *React, JavaScript, HTML, CSS* 📅 **October 2024**

- Visit USA is an application that explores the beauty of the states of the United States.
- I created an attractive and functional interface that presents detailed information and images of the main American states and also shows the location of each one on an animated map.

Skills

Languages: HTML, CSS, JavaScript, TypeScript, Python, MySQL, PostgreSQL.
Frameworks: NodeJs, React, VueJs, Bootstrap, TailwindCSS.
Machine Learning & Data Science: Pandas, Numpy, Matplotlib, Seaborn, Scikit-learn, TensorFlow.

Education

Universidade Cruzeiro do Sul (UNICSUL) 📅 August 2022 – June 2024 (**2 years**)
Systems Analysis and Development Technologist 📍 *Guarulhos – SP, Brazil*

Cod3r (Udemy) 📅 May 2023
Curso Web Moderno Completo com JavaScript 2022 + Projetos

- Most comprehensive course on web development, covering everything from the fundamentals to advanced and popular technologies.
- Main Topics: JavaScript, Node.js, HTML, CSS, Bootstrap, React, VueJS and MySQL.

Dr. Angela Yu (Udemy) 📅 June 2024
The Complete Web Development Bootcamp

- Complete course on web development, taught by Angela Yu, covering everything from the basics to advanced technologies.
- Main Topics: HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, EJS, React and APIs RESTful.

Jones Granatyr (Udemy) 📅 January 2025
Machine Learning and Data Science with Python

- In-depth course in Artificial Intelligence, covering fundamental and advanced concepts of Machine Learning and Data Science.
- Main Topics: Python, Data Manipulation with Pandas and Numpy, Machine Learning and Neural Networks.
